AIC2015 TOKYO (AIC Midterm Meeting in Tokyo) 19th – 22nd May, 2015

The Color Science Association of Japan (CSAJ) is pleased to invite you to Tokyo for the Midterm Meeting of the AIC. In 1997, we held the 8th AIC Congress in Kyoto, the historical capital of Japan. Many of you might have good memories of AIC Kyoto. Eighteen years have passed since then. Now we would like to invite you to Tokyo, the modern and exciting capital of Japan.

This meeting will provide a unique forum, bringing together researchers, academics, students, artists, architects, industrialists, engineers, designers, computer scientists, lighting experts, media professionals, exhibitors and business leaders. We anticipate more than 300 delegates from all over the world.

This year the 16th International Symposium on Multispectral Color Science (MCS 2015) is organized as part of the AIC2015.

Conference Theme: Color and Image

The theme is “Color and Image.” The word *image* has a very wide meaning; it refers not only to visible presentation, such as imaging devices, displays, pictures, etc., but also to a presentation of anything from people’s minds. Therefore any topics of color should be correlated to “image.” The following fields and topics are all welcome at AIC2015.

Conference Topics:

- Color Imaging
- Color Image Processing
- Computational Color Image
- Color in Computer Graphics
- Color Reproduction
- Color Image Quality
- Multispectral Color Science
- Multispectral Imaging
- Multispectral Image Acquisition / Display
- Spectral Image Application
- Colorimetry / Colorimetric Imaging

Venue: Ochanomizu sola city Conference Center, Tokyo, Japan

The venue is Ochanomizu sola city Conference Center in Tokyo. You can easily reach Tokyo from two International Airports: Narita Airport, which handles the majority of international flights, is located 60 km outside of central Tokyo, while Haneda Airport is located more centrally. Today, Tokyo offers a seemingly unlimited choice of shopping, entertainment, culture and dining to its visitors. The city's history can be appreciated in districts such as Asakusa, and in many excellent museums, historic temples and gardens. Contrary to common perception, Tokyo also offers a number of attractive green spaces in the city center and within relatively short train rides at its outskirts.

May is the best month to visit Tokyo as the vegetation has become lush, the temperatures are still comfortable, and tourist spots tend to be pleasantly uncrowded. Before, after and during the meeting, you will enjoy an exciting Tokyo experience.
